COMPANY PROFILE

CLASSIC SUPER FRESH INDUSTRIES LTD.

Manufacturer of Premium Quality Soaps & Detergent Products

COMPANY OVERVIEW

Classic Super Fresh Industries Ltd. is a modern manufacturing company specializing in the production of high-quality toilet soaps, laundry soaps, and detergent products. The company is committed to producing hygiene and personal care products that meet international quality standards while remaining affordable for everyday consumers.

Our manufacturing facility is equipped with modern machinery and advanced production systems to ensure consistent product quality, high production capacity, and strict quality control.

Classic Super Fresh Industries Ltd. aims to become a leading brand in the personal care and household cleaning industry, delivering reliable hygiene solutions for households, hotels, institutions, and commercial markets.

Vision

To become a leading soap and hygiene product manufacturer, recognized for quality, innovation, and customer trust in both local and international markets.

Our Mission

Our mission is to :

- Produce high-quality soap products that promote hygiene and cleanliness
- Ensure affordability and accessibility for consumers
- Maintain international quality and safety standards
- Expand distribution across domestic and international markets
- Build a strong and trusted brand in the hygiene industry

OUR PRODUCTS

- Moisturizing ingredients

LAUNDRY SOAP

Durable and powerful laundry soaps designed for effective cleaning of clothes.

Features:

- Strong cleaning performance
- High foam formulation
- Removes tough stains
- Suitable for hand washing

DETERGENT SOAP

Specially formulated detergent bars for heavy-duty cleaning.

Features:

- Powerful stain removal
- Brightening formula
- Economical and long lasting

MANUFACTURING FACILITY

Classic Super Fresh Industries Ltd. operates a modern manufacturing facility designed to meet industrial production standards.

Our facility includes:

- Advanced soap processing machines
- Quality testing laboratory
- Hygienic production environment
- Modern packaging unit
- Efficient supply chain system
- This ensures our products maintain consistent quality and reliability.

QUALITY CONTROL

At **Classic Super Fresh Industries Ltd.**, quality is the foundation of our manufacturing process. We follow strict quality control procedures at every stage of production to ensure that all our soap products meet the highest standards of safety, performance, and reliability.

Our quality assurance system begins with the careful selection of raw materials and continues through production, packaging, storage, and distribution.

RAW MATERIAL INSPECTION

All raw materials used in the production of our soap products are carefully inspected before entering the manufacturing process. We source ingredients from trusted suppliers and verify their quality to ensure that they meet our required standards.

Each batch of raw materials undergoes testing to check:

- Purity and composition
- Safety for skin use
- Fragrance quality
- Chemical balance and stability

Only approved materials are allowed to enter the production line.

PRODUCTION MONITORING

Our production process is closely supervised by trained technicians and quality control professionals. Modern equipment and standardized production methods are used to maintain consistency in every batch of soap produced.

During production, several parameters are monitored, including:

- Proper mixing of ingredients
- Correct temperature and processing conditions
- Uniform texture and color
- Consistent soap weight and shape

These measures ensure that each product maintains the same high quality.

LABORATORY TESTING

Finished products are tested in our quality control laboratory before they are released to the market.

Our laboratory checks include:

- pH level testing
- Foam performance testing
- Hardness and durability testing
- Fragrance consistency
- Skin compatibility testing

These tests ensure that the soap is effective, safe, and pleasant for daily use.

PACKAGING QUALITY ASSURANCE

Proper packaging is essential for maintaining product freshness and hygiene. Our packaging materials are carefully selected and inspected to protect the soap from contamination and damage.

Each packaged product is checked for:

- Proper sealing
- Correct labeling
- Batch number identification
- Manufacturing and expiry information

FUTURE GOALS

Our future plans include:

- Expanding product lines (liquid soap, shampoo, detergent powder)
- Increasing manufacturing capacity
- Developing international export markets
- Introducing eco-friendly hygiene products

CONTINUOUS IMPROVEMENT

Classic Super Fresh Industries Ltd. believes in continuous improvement. Our quality control team regularly reviews production methods, raw materials, and customer feedback to enhance product performance and reliability.

Through innovation, strict quality monitoring, and professional management, we ensure that every product delivered to our customers meets the highest standards of hygiene and quality.

WHY CHOOSE US

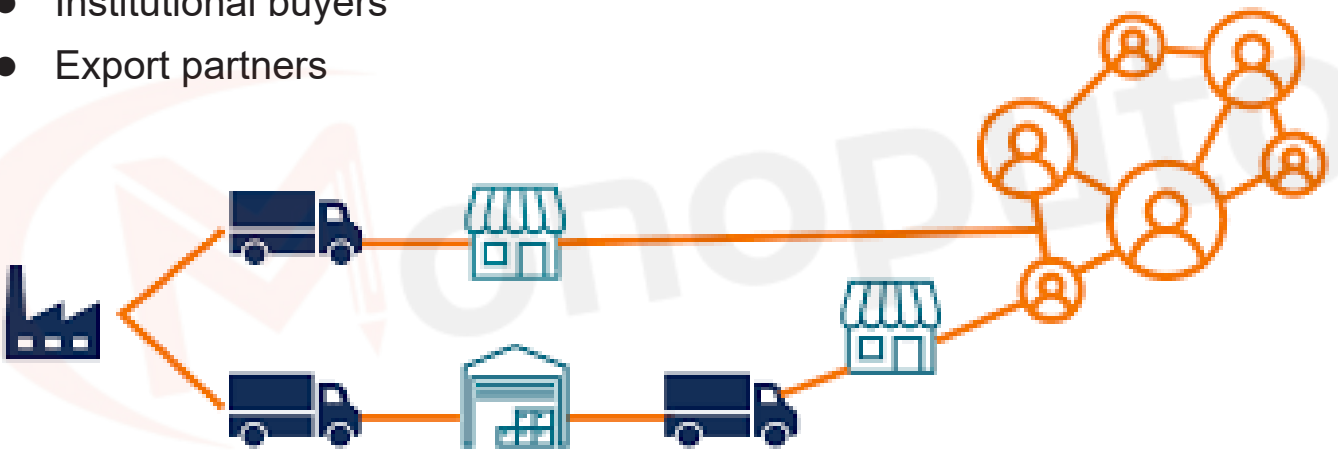

- Premium quality soap products
- Modern manufacturing facility
- Competitive pricing
- Reliable supply chain
- Strong distribution network
- Customer-focused service

DISTRIBUTION NETWORK
